

Queen Mary University Pathways to Law Easter placements 2024

<p>AA Thornton IP LLP</p> <p>8th Floor, 125 Old Broad Street, London, EC2N 1AR</p>	<p>Wednesday 10th April – Friday 12th April</p>	<p>It's our people that make the difference Our partners and attorneys are highly qualified and highly experienced to advise you in all areas of Intellectual Property law. We advise start-ups, SMEs, and multinational corporations and ensure that your inventions, brands and designs are expertly protected.</p> <p>Our specialist teams cover a huge range of industries and technical fields, from automotive and aerospace and electronics and electrical engineering to cosmetics and pharmaceuticals.</p>	<p>An insight into the world of Intellectual Property Law, where students will be able to gain an understanding of the variety of roles within the firm and understand how we support our clients in protecting their brands or patenting their innovative new products. Students will be able to gain an understanding of the career paths within the profession and gain some hands on practical experience of some of the legal roles we have in the firm. You will have an opportunity to meet with some of our talented lawyers and ask them questions which will hopefully inspire you to choose a career within intellectual property. A science degree is required for entry to patent attorney roles, and for other attorney roles a degree and an interest in IP and the law would be ideal. For paralegal roles or business support, there are flexible entry criteria, and so there is something for everyone.</p>
